- Develop dashboard webpages to display processed data using HTML, PHP, JS, CSS
- Contribute to the development of full stack solutions
- Write new APIs to interact or share data with client
- Manage MySQL databases and write post-processing scripts to extract and display key information
- Optimise Prime AI systems for optimum server responsiveness, data throughput, query response times
- Ensure server and data access are fully secured
- Contribute to the company's compliance with GDPR

Required Qualification and Work Experience –

- Degree in Computer Science
- Minimum 5-year experience in a similar position with exposure to commercial software development
- Experience of developing large data processing solutions
- Strong working knowledge of LAMP Stack
- Proven proficiency in developing applications using PHP, PYTHON, C++, HTML, JS, CSS, REST API
- Experience of working with large and complex mySQL databases
- At ease creating and parsing JSON
- Good knowledge of server-side optimisation
- Good understanding of basic cyber security and networking
- Previous experience with Shopify and Shopify API would be distinctive advantage
- Previous experience of big data storage, information retrieval, management would be an advantage

Skills and Attributes –

- Enthusiasm for the development of new, innovative online solutions
- Strong communicator and team player with the ability to work remotely and autonomously
- Organised and with a track record of delivering on time and to high standards
- Approach problem solving with a can-do and creative mindset
- Strong attention to detail
- Flexible
- Good numeracy skills
- Perfectly fluent in English both verbal and written

What we offer –

- A dynamic working environment within a small, dedicated, and high-performing team
- Competitive salary
- Flexible working hours
- Opportunities for career progression

Location –

- Prime AI operates as a full virtual office with occasional meetings in central London or Kent
- Applicants must be located in the UK and attest of their right to work, on a permanent and full-time basis, in the UK (Prime AI will not make or support visa applications).

Other Information –

- Submit your CV to recruitment@primeai.co.uk. No agencies, no freelance consultants, thank you.
